SILVER

smart solutions for small apartments, studios, offices, hotels, boarding houses, student lodgements

COMPACT & FULLY EQUIPED

Although compact and in small dimensions, mini-kitchens include all the electrical appliances and accessories that a normal kitchen requires.

PORTABLE

Each mini-kitchen is consisted of separate parts which are assembled on the spot. All mini-kitchens can be assembled and unassembled any time, without requiring special preparation (e.g. installation of kitchen tiles) and without tying down the space on which are installed.

CHEAP DELIVERY & SUPPORT

Cheap delivery, as the total volume of an average mini-kitchen is only 0,72m³ (model KS125).

Cheap after sales service support, as we never replace the whole mini-kitchen but only the unique damaged parts.

EASY INSTALLATION

Documentation with instructions and video for extra support and easy installation.

HIGH QUALITY MATERIALS

All metal parts of mini-kitchens are made of Stainless Steel (INOX).
Kitchens tops are made of water resistant HPL, P5 material.

FLEXIBILITY IN EQUIPMENT & DIMENSIONS

The customer can change the basic equipment of electrical appliances e.g. ceramic/gas hob instead inox hob **OR** can add extra cupboards, achieving different dimensions.

Possibility of mini-kitchen customization (for big quantity orders).

VARIETY OF COLORS

8 different colors of wood material

6 different colors of PVC material for roll-tops

Possibility of combining different colors of wood and PVC

PROFESSIONALISM

Over 15 years experience in production of mini-kitchens.
ISO 9001:2008
